Chartering a Motor Coach with Confidence

Planning a trip by motor coach is easy when you choose an IMG Operator. Start with determining who will be traveling, what their interests are, desirable destinations, and what the budget is per person. Add any special needs your group may have to the list and have it ready when you speak with your IMG professional. Remember, if you're planning an extended tour, start 6-12 months before departure; a short tour, 4-6 months in advance; and, a Day Trip or Overnight Tour, three months in advance. Below are questions that you should ask your IMG Operator to help you plan your motor coach charter with confidence.

- I. Does the company have a motor coach to suit your needs?
 - Ask about amenities and the size of the vehicle.
 - Ask about Department of Transportation, State, and Provincial Inspection ratings.
 - Who maintains the vehicles?
 - Ask for references and to inspect the vehicle and the service area.
 - Does the vechicle have amenities that your client requires such as Wifi, and electrical outlets?
 - Ensure you understand Drivers Hours of Serivce
- 2. Safety & Time Management
 - Discuss potential route, to ensure the most suitable roads are used.
 - Ask about safety procedures, i.e. seat belts while travelling.
 - Does the company have a drug/alcohol-testing program?

INTERNATIONAL TRAVEL ... a European note.

There are many things to think about when planning your next group experience with an IMG shareholder company or one of our international partners. Our number one priority is to transport your group safely to and from its destination. With this in mind, we want to provide you with valuable information regarding driver hours of service that you should take into consideration when mapping out your itinerary abroad. Please also note that prices for motorcoach service have been greatly affected by the new laws adopted by the European Union.

As of March 15, 2006, the European Union regulations for driver hours underwent some changes regarding driving time, weekly driving limits, and rest periods. Here is a summary of the new regulations:

- Daily Driving Time 9 hours, extendable to no more than 10, twice per week.
- Weekly Limit 56 hours/Maximum 90 hours per two-week period.
- Weekly Rest 45 hours rest required after no more than 6 X 24 hour periods after the
 previous weekly rest. This can be reduced to a 24 hour rest (minimum) within a maximum
 two week period.
- Daily Rest 11 hours, reducible to 9 hours (reduced daily rest) but no more than 3 times per week.
- Rest Period in the Working Day Maximum of 4.5 hours driving, then a 45 minute break, or a 15 minute break, followed by a 30 minute break at the 4.5 hour mark.
- Daily "Spread Over" Max of 15 hours (24 maximum between two rest periods minus max permitted reduced daily rest of 9 hours but no more than three times per week) or 13 hours (24 maximum minus 11 hours rest).

What does this mean for tour groups and travellers to Europe? Safety with a cost. Just like they do in the United States and Canada, these new regulations are impacting the cost of providing transportation. And, while price may be a major factor in purchasing transportation, buyer beware! A low bid should be scrutinized to ensure compliance with the new laws. Failure to comply on the part of the coach operator will directly impact your group.

If you have questions about the new regulations or other issues related to international travel, give us a call or drop us an e-mail so we can make your travel experience a very positive one.
